

# ITRC Live Training Sessions!

In conjunction with the ITRC Annual Meeting, March 20 – 24, 2023  
*Boston Park Plaza Hotel*  
Boston, Massachusetts

[ITRC Annual Meeting Website](#)

## ***Microplastics Policies & Research Around the Globe (With Simulcast)***

March 22, 2023, 5:00pm – 6:30pm EST

The Interstate Technology and Regulatory Council (ITRC) together with the Australasian Land and Groundwater Association (ALGA) is holding a live expert panel on the latest news on microplastics policies, regulations, and research from both the US, Australia, and other countries. This live panel will compare different country responses and have a discussion on next steps for microplastics.

## ***PER- AND POLYFLUOROALKYL SUBSTANCES 101 (States Only)***

March 24, 2023, 8:30am – 12:30pm EST

This interactive training will include emerging science on PFAS, including topics such as Properties of PFAS, Fate and Transport, Sampling and Analysis, and Treatment Technologies. It is expected that attendees will have some familiarity with PFAS, but the technical presentations will focus on those relatively new to PFAS.

**REGISTER NOW!**

## ***RISK COMMUNICATION TRAINING WORKSHOP (States and EPA Only)***

March 24, 2023, 8:30am – 12:30pm

A companion to ITRC's Risk Communication Toolkit, this interactive workshop is designed to help regulators develop, refine and implement successful risk communication campaigns applicable across a diverse body of contemporary environmental issues.
